

Scattered Beam Monitors (SBM) –Subsystem of WBS 1.7

Scattered beam monitors (SBM)

- Electronics/configuration of each detector is same as in Integrating Detector Work Package Diagram (except for explicit changes noted below)
- SAM (small angle scattered beam monitors) – 8
- LAM (large angle scattered beam monitors) - 7
- DBM (diffuse scattered beam monitors) – some with PMT only or PMT+LG only: complete – 7, PMT only – 7, PMT+LG - 7

Locations:

LAM: in collimator region
(if suitable location can be found): x7

DBM: complete: x7
PMT only: x7
PMT + LG: x7

SAM: x8
